EDUCATION

- Chandigarh University** Punjab, India
Bachelor of Engineering - Computer Science and Engineering CGPA:8.11 July 2022 - June 2026
Courses: Operating Systems, Data Structures, Design and Analysis Of Algorithms, Computer Networks, Databases

SKILLS SUMMARY

- Languages:** C, C++, Java, Python, JavaScript, SQL, Solidity
- Web & Backend:** HTML5, CSS3, React.js, Bootstrap, Node.js, Express.js, REST APIs
- Data & AI:** SQL, Microsoft Fabric, Databricks, Power BI, ETL/ELT, Pandas, NumPy, Scikit-learn, TensorFlow, NLP, RAG, LangChain
- Databases:** MySQL, PostgreSQL, SQLite, ChromaDB
- DevOps & Cloud:** Git, GitHub, Docker, Terraform, CI/CD, AWS, Azure
- Core Concepts:** DSA, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

- JMAN Digital Services Pvt. Ltd.** Chennai, India
Software Engineer Feb 2026 - Present
 - Built a full-stack Event Management System (React.js, Node.js) and developed a scalable ELT data pipeline using Microsoft Fabric and Databricks (Bronze-Silver-Gold architecture).
 - Developed Power BI dashboards for business insights and a churn prediction model (XGBoost) achieving AUC of 0.99.
 - Built an AI-powered College Admission Assistant using RAG, LangChain, and FastAPI for intelligent query handling.
- Natural Coders** Remote
Frontend Developer Intern Dec 2024 - Feb 2025
 - Developed a responsive e-commerce platform using HTML, CSS, JavaScript, and APIs, improving data-fetching speed by 40% and UI/UX by 25%.
 - Worked in an Agile environment, delivering frontend features within a 45-day timeline.
- METACRAFTERS** Remote
Blockchain Developer Trainee Jun 2024 - Jul 2024
 - Developed 3+ decentralized applications and smart contracts using Solidity, improving transaction security.
 - Worked with Web3 tools including MetaMask and Remix for blockchain development and testing.

PROJECTS

- AI-Powered College Admission Assistant - RAG & Agentic AI:** Developed an AI-based assistant using Retrieval-Augmented Generation (RAG) with LangChain and FastAPI to provide real-time admission guidance. Implemented vector search and API-based responses for context-aware and intelligent interactions. Integrated vector database (ChromaDB) for efficient document retrieval and response generation. (Apr 2026) | Source Code
- Pre-Renewal Churn Prediction Model - Machine Learning:** Built a churn prediction model using Python and XGBoost achieving AUC of 0.99. Performed feature engineering and model optimization to identify key churn drivers and support data-driven decision making. Handled class imbalance and evaluated multiple models to select the best-performing approach. (Mar 2026 - Apr 2026) | Source Code
- Retail Data Engineering Pipeline - ELT Architecture:** Designed a scalable ELT pipeline using Microsoft Fabric and Databricks following Bronze-Silver-Gold architecture. Processed multi-source retail data using SQL and PySpark to generate business KPIs including revenue trends and customer insights. Performed data transformation, cleaning, and schema management for structured analytics. (Mar 2026) | Source Code
- Event Management System - Full Stack & Platform Engineering:** Built a full-stack event management platform using React.js and Node.js with responsive UI and backend API integration. Implemented Docker containerization, CI/CD pipelines, and infrastructure provisioning using Terraform, and deployed on Azure for scalable, production-ready architecture. Designed RESTful APIs for event creation, user interaction, and data handling. (Feb 2026 - Mar 2026) | Source Code

HONORS AND AWARDS

- Top 2% in All India NPTEL Cloud Computing Exam - 2024
- Received the DLL SWAYAM Excellence Award for outstanding performance in Cloud Computing, presented at the DLL-MOOCs Achievement Awards 2024 by Chandigarh University.
- Attended CodeRush event at Tech Titans Club and actively contributing as a member of the club.
- Served in the National Cadet Corps (Navy Wing), developing leadership, discipline, and teamwork skills through rigorous training and drills.

CERTIFICATIONS

- NPTEL Cloud Computing** - Achieved Top 2% Rank (2024)
- Databases and SQL for Data Science with Python** - Coursera
- Introduction to Relational Databases (RDBMS)** - Meta, Coursera
- Internet of Things (IoT)** - NPTEL
- Introduction to Database** - Meta, Coursera
